DONCHAMP® Splash Acrylic panels are specially developed for aquarium and pool environments. These panels are a safer alternative to glass and can be installed in window or wall applications that lets in natural light while providing clear and unobstructed views.

DONCHAMP® Splash Acrylic panels come in a range of sizes up to 9300mm x 3000mm and with a thickness of 30mm to 750mm, making it ideal for a variety of residential and commercial projects. It also comes with a 30 year warranty (on Clear) against UV breakdown and discolouration as well as obtaining a PVHO-1 (Pressure Vessel Human Occupancy) 2019 Certification by DNV-GL. With the ability to also thermoform DONCHAMP Splash Acrylic panels, designs can be endless.
